A Message and Greeting to Our Customers

AS the 1936 garden season approaches we are again mailing to you a copy of our seed annual. We sincerely trust you find it interesting and helpful to you, in making your selections and in planning your garden.

In this little catalogue we wish to call your attention to the new items and novelties of both vegetables and flowers. These will be found on pages 2, 3, 14, 15 and 16. These have all been thoroughly tested and have been found to be adapted to New England conditions. Many items are All American Selections for this and previous seasons.

You will note that we pay the postage on all flower and vegetable seeds up to and including five pounds of each variety. All field seeds and supplies are quoted F.O.B. Portland, Maine. Peas, beans and corn are offered in packets, $\frac{1}{2}$ pounds and pounds and not by pints and quarts.

We trust after you have perused our Annual that you will favor us with your order.

PINE TREE STATE SEED COMPANY.

AGENTS WANTED

To the members of the Grange, Home Demonstration Clubs, 4-H Clubs, Farm Bureaus and Agricultural and Home Economic Clubs you can make good money acting as our agent and taking orders for our seeds. Write for liberal terms to agents.

APPRECIATION

We appreciate the many kind words spoken for our seeds and we want to thank all our friends for the business given us last year. We know old customers will favor us with their order again. We hope for a trial order, no matter how small from each reader of this book.

TO MEMBERS OF THE GRANGE

You can save money by getting up a Seed Club in your Grange and sending the order to us.

We will send you some extra Catalogs and order blanks free. (We will also wrap each order separately and properly label them and will include a lot of free packets). Write for full information about the advantages secured on Grange orders. Address Grange Department.

FRATERNITY

Perhaps your neighbor would like to see our catalog. It would be a real service of helpfulness to pass this little book along, after you have finished with it, or if you will send us their address we will be glad to mail them a copy. There is a fraternity among garden lovers that makes us all appreciate suggestions and help—even though it may only be the passing along of a seed catalog to a friend.

LEND THIS SEED BOOK TO YOUR NEIGHBOR—THANK YOU.

VEGETABLE NOVELTIES--1936

For your consideration and approval we are offering on this and the succeeding page, a list of twenty-four tested varieties. Some of the varieties are not new, but they are sufficiently outstanding to warrant giving them special notice. Any, or all, of these varieties are worthy of a trial.

May we suggest as you prepare your order that you include some of these varieties in your list, or why not have an entire garden of these newer and outstanding varieties?

New Pole Bean—Sunset or Golden Podded Bobolink

Bean—IMPERATOR. An exceptional variety as to quality, productivity and earliness. The pods are nearly straight, dark green, $6\frac{1}{2}$ inches long, stringless, of fine quality and delicate flavor. Plants medium large, erect and very productive. A very dependable variety for the garden, canning or commercial purposes. It matures in 53 days.

Pkt. 10c; $\frac{1}{2}$ lb. 25c; lb. 35c; 2 lbs. 60c

If You Want the Best All-around Musk Melon, Plant Our Thousand Dollar Melon

Pole Bean—BOBOLINK. This variety originated in Maine and is ideally adapted for New England conditions. It is extremely early, prolific, producing long, flat, meaty pods, entirely free from strings and fiber. It is hardy, easily grown, enormously productive and excellent for canning.

Pkt. 15c; $\frac{1}{2}$ lb. 25c; lb. 40c; 2 lbs. 70c

Pole Bean—SUNSET or GOLDEN PODDED BOBOLINK. This valuable wax podded variety originated as a sport from our famous Bobolink. The long, golden yellow pods are extremely tender, entirely stringless and have a rich, melting buttery flavor, that is not found in other varieties. Sunset has all the good qualities of Bobolink and in addition, it is a few days earlier.

Pkt. 15c; $\frac{1}{2}$ lb. 25c; lb. 40c; 2 lbs. 70c

Beet—GOOD FOR ALL. A marvelous new beet particularly adapted for home gardens and canning. The roots are smooth; even in shape and size, almost globular and of a deep crimson. The crisp, tender, sweet crimson flesh is free from zones and fiber. Tops and neck very small. It has no superior for the home.

Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb. 50c

Cabbage—PENN STATE BALLHEAD. This variety is adapted to New England conditions. It matures in 110 days, producing heads 8 inches in diameter, weighing 6 pounds. They are attractive, slightly flattened, 6 to 7 inches deep, yielding a heavy tonnage. Desirable for shipping and storage.

Pkt. 15c; $\frac{1}{2}$ oz. 35c; oz. 60c; $\frac{1}{4}$ lb. \$2.00

Carrot—IMPERATOR. An outstanding variety of recent introduction for bunching and shipping. The roots, 7 to $8\frac{1}{2}$ inches long, have sloping shoulders, smooth, deep, rich orange; uniformly tapered to a semi-blunt end. The flesh is rich orange, fine grained, tender, excellent quality and free from core.

Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 60c; lb. \$1.75

Cauliflower—SUPER SNOWBALL. A highly desirable main crop variety which is also used for early plantings. It matures in 57 days, from the date of setting the plants, producing uniform, medium large, compact, very white heads.

Pkt. 20c; $\frac{1}{4}$ oz. \$1.15; $\frac{1}{2}$ oz. \$2.05; oz. \$3.50

Celery—GOLDEN PASCAL. For a long time there has been a demand for a golden late celery, with the shape and quality of the green. This superior variety fulfills all of the requirements. Plants 22 to 28 inches tall. Stems narrow, round but very thick, blanching to a creamy yellow.

Pkt. 25c; $\frac{1}{2}$ oz. \$2.00; oz. \$3.50; $\frac{1}{4}$ lb. \$10.00

Sweet Corn—GOLDEN CROSS BANTAM. Growers who have not tried the new hybrid corns have certainly missed a good bet. This hybrid is early, uniform, prolific and highly resistant to Stewart's Disease. Stalks sturdy, ears 10 to 14 rowed; kernels medium in width and length and slightly lighter in color than Golden Bantam.

Pkt. 20c; $\frac{1}{2}$ lb. 45c; lb. 75c; 2 lbs. \$1.40

Sweet Corn—SELECTED GOLDEN BANTAM. This strain of Golden Bantam was selected, produced and introduced in Maine by the late Dr. G. M. Twitchell. It is outstanding for its earliness, size of ear and productiveness. It is the result of fifteen years of careful and rigid selection.

Pkt. 15c; $\frac{1}{2}$ lb. 25c; lb. 40c; 2 lbs. 70c

Vegetable Novelties for 1936—continued

Cucumber—IMPERATOR. A handsome, very dark green cucumber, 8½ to 10 inches long, maturing in 63 days. The fruits taper slightly at both ends, with firm, crisp, sweet flesh. Imperator holds its color and firmness for prolonged periods.

Pkt. 10c; oz. 20c; ¼ lb. 70c; lb. \$2.00

Lettuce—WHITE BOSTON. One of the most popular varieties for home and market gardens. Similar to Big Boston, except leaves are slightly lighter in color and lack the reddish tint. The hearts are buttery, yellow and of excellent quality.

Pkt. 15c; oz. 25c; ¼ lb. 75c

Muskmelon—GOLDEN CHAMPION. If you are interested in a real melon, try Golden Champion. Its thick, juicy, succulent, tender, bright salmon flesh is luscious. The fruits are nearly round, slightly ribbed and netted. One of the best early varieties.

Pkt. 15c; oz. 50c; ¼ lb. \$1.50

Peas—LAXTON'S SUPERB. The Earliest large podded, dwarf sort. Plants 18 inches tall, bearing pods of medium, attractive dark green, containing 9-10 peas of good quality.

Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 60c

Pepper—KING OF THE NORTH. This will mature and produce results in New England. Fruits dark green, maturing to a deep rich red; with thick, mild and sweet flesh. Outstanding because of earliness, productiveness and size of fruits.

Pkt. 15c; ½ oz. 55c; oz. \$1.00

Radish—SAXA. An ideal forcing, frame and early maturing variety. Tops very small. Roots small, spherical, ¾ inch in diameter, bright scarlet in color, with crisp, white and mild flesh. Excellent for early and succession plantings.

Pkt. 10c; oz. 15c; ¼ lb. 35c; lb. \$1.00

Muskmelon, Golden Champion

Muskmelon—METCALF'S THOUSAND DOLLAR. The fruits are elongated, ribbed and closely netted. Flesh thick, fine grained, luscious, tender, sweet and deep orange. Originated and grown in Maine for New England gardens. Pkt. 15c; oz. 50c; ¼ lb. \$1.50

Muskmelon—HEARTS OF GOLD. A popular variety, producing fruits practically round, distinctly ribbed, deep green, finely netted, weighing 2 pounds. Flesh very thick, deep golden salmon; tender, juicy, sweet and aromatic. Pkt. 10c; oz. 25c; ¼ lb. 75c

Peas—ASGROW 40. An improved earlier Stratagem. Vines dark green, stocky and branching. Pods round, dark green, plump, pointed, containing 8 to 10 large succulent peas. Unexcelled in pod size and exceptional quality.

Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 60c

Peas—ONWARD. Quality, productivity and uniformity are its outstanding characteristics. Vines 27 inches tall, producing a wealth of large pods, containing eight luscious, tender sweet, bright green peas. Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 60c

Spinach—VIKING. One of the All America selections. It is a dark green, long standing, giant, smooth leaved spinach. The leaves are large and tender and the plants are long standing.

Pkt. 10c; oz. 15c; ¼ lb. 25c; lb. 75c

Squash—TABLE QUEEN. An ideal individual, quality squash. Fruits 5 to 6 inches long by 4½ inches in diameter, ribbed, smooth, thin shelled. Flesh light yellow, baking well with a sweet inviting flavor. Pkt. 10c; oz. 15c; ¼ lb. 50c; lb. \$1.50

Tomato—PRITCHARD. The newest and best of the Wilt Resistant varieties. Very prolific. Fruits solid, of an excellent deep scarlet color. A superb canning and market variety.

Pkt. 15c; ½ oz. 30c; oz. 50c

Tomato—SCARLET DAWN. (All America Gold Medal 1935). Vines medium growth, open and prolific. Fruits medium size, globular, smooth, bright scarlet, flesh thick, solid, meaty and sweet. Very desirable.

Pkt. 15c; ½ oz. 55c; oz. \$1.00

We pay the postage on all vegetable and flower seeds up to and including 5 pounds of each item.
Order early, seed supplies are limited.

INSURE SUCCESS IN YOUR GARDEN BY SOWING OUR HIGH GRADE TESTED SEEDS

SPROUTING BROCCOLI

Per Pkt.

CALABRESE—ITALIAN GREEN. We have a very fine strain of this choice Italian vegetable, which only recently has become a favorite in American markets. Does not make solid heads, but produces an abundance of green, tender sprouts with loose flower-heads at the end. Cook like Spinach or Cauliflower. Delicious and tasty. Sow in May, harvest in August.

10c

MANGEL WURZEL

MAMMOTH LONG RED. Producing roots of mammoth size. This is the best long red.

GIANT SUGAR BEET. Desirable for stock feeding of high nutritive value, rich in sugar.

VARIETIES OF MANGOLDS MIXED. Oz. 15c; $\frac{1}{4}$ lb. 25c; lb. 75c, postpaid.

BRUSSELS SPROUTS

IMPROVED EXTRA. Closely covered with large, compact sprouts. The very best sort. Oz. 30c; $\frac{1}{4}$ lb. \$1.00; lb. \$3.00.

10c

SWISS CHARD

LUCULLUS. Swiss Chard has long been popular in the home garden and is deserving of plantings in every garden. The quality of the leaves is equal to or superior to spinach and the stalks make a very tasty dish when cooked and served like asparagus. The plants are upright, producing large leaves, light green, heavily crumpled, with thick, light green stems. Easy to grow and prepare. Oz. 15c; $\frac{1}{4}$ lb. 45c.

10c

FORDHOOK GIANT. This is a comparatively new, vigorous growing, prolific variety, producing huge leaves $2\frac{1}{2}$ feet long and 10 inches wide. The stems, $2\frac{1}{2}$ inches wide, are pearly white, crisp and tender. Despite of the size, the leaves are tender and palatable. Oz. 15c; $\frac{1}{4}$ lb. 50c; lb. \$1.50.

FLOWER NOVELTIES--1936

This season we are offering for your approval a very outstanding list of annual and perennial flower novelties and new varieties. Never before have we listed such an array of beautiful, gorgeous flowers.

You will note that many of these varieties are All America Selections for this and previous seasons. This should be sufficient recommendation for any flower lover to desire to try them. They have been thoroughly tested and have been proven to be outstanding.

Antirrhinum or Snapdragon

ANTIRRHINUM—Rust Proof California Giants. A new, Rust Proof strain of snapdragons introduced by the California Experiment Station. The plants are 20 to 24 inches tall, bearing long spikes of closely spaced, extra large florets. It comprises a fine, full range of all of the popular shades. This strain of the Majestic type is considered excellent for borders, cutting and florists' use. Pkt. 25c.

ASTER—Aurora Golden Sheaf. It is the deepest yellow aster yet produced. The attractive double flowers are of the Aurora type, with a full-cushioned, crest like center supported by several rows of short ray petals. Fully wilt resistant and 100% true to type and color. Pkt. 20c.

ASTER—Super Giant. El Monte. Deep glowing crimson, composed of numerous daintily interlaced plume like petals. The flowers are exceedingly large and fluffy being borne on heavy non-lateral, basal branches. It is very early blooming, remaining in flower for prolonged periods. The only large crimson flowered aster. Pkt. 25c.

ASTER—Super Giant. Los Angeles. The first introduction in the modern Super Giant class of asters. The flowers are fully double 6 to 8 inches across, gracefully and delicately interlaced petals of a delightful shell pink. The long stems are basal branching, bearing the large flowers, smartly upright. Pkt. 20c.

ASTER—Mammoth Paeony Flowered. Mixed. A superb florist strain, with immense, fully double flowers resembling the Beauty type, borne on long, stout non-lateral stems. The plants are 2½ to 3 feet tall, blooming with the Giants of California. The compactly placed petals give substance and keeping qualities to the flowers. Pkt. 15c.

CALENDULA—Chrysanthia. One of the loveliest and most outstanding annuals. The plants are strong and vigorous in their growth producing a wealth of blooms on stiff strong stems. Flowers 4 inches across, clear buttercup yellow, with wide, loosely arranged petals incurved in center and reflexed at the edges. Pkt. 15c.

CALENDULA—Frilled Beauty. The flowers are large, fully double with stiff petals which are semi-rounded, giving body to the flower. The deep orange, frilled flowers are borne on long strong stems, making them ideal for cutting. Frilled Beauty is one of the Finest new varieties. Pkt. 20c.

CALENDULA—Orange Shaggy. This is one of the most interesting and distinct new types of Calendulas. The flowers are deep orange, shading lighter at the center. Because of the laciniated ray florets, the blooms are exceedingly graceful and informal in appearance. The plants are free flowering, neat and compact. Pkt. 20c.

CANDYTUFT—Miniature Gem. Here is a dainty, but stately, dwarf annual adapted for borders, edging and rockeries. It is a small miniature hyacinth flowered candytuft. Each plant produces four to six dainty spikes. There surely is a place in your garden for this baby annual. Pkt. 15c.

COSMOS—Early Klondyke. Orange Flare. Granted the highest honor that can be bestowed on any flower variety in the United States. The long stemmed, bright, vivid orange flowers are freely borne on well shaped plants 2 to 3 feet tall. It will flower in less than four months from seed. Pkt. 25c.

LEND THIS SEED BOOK TO YOUR NEIGHBOR—THANK YOU.

FLOWER NOVELTIES--1936

DELPHINIUM—Cliveden

Beauty. This is a new, superb strain of the stately, hardy perennial Delphinium, being an improvement of the Belladonna strains. The plants are strong, vigorous and well foliated with dark green leaves. The long graceful spikes produce large, dainty, bright sky blue flowers, which remain in excellent condition for prolonged periods. It is one of the best perennials for background plantings and for cutting when long flower spikes are required. If the plants are cut back after the early flowering, they will produce a second crop of gorgeous flowers. Pkt. 15c.

HUNNEMANNIA — Semi-Double Sunlite. This interesting new semi-double form of the Mexican Tulip Poppy resembles somewhat the flowers and foliage of Eschscholtzia. The large attractive tulip shaped flowers are especially fine for cutting. The extra row of petals on the outside, rather than the inside of the cup, gives the flower the appearance of being open at all times. The plants are of good habit, about 2 feet in height, extremely free flowering, remaining in bloom throughout the summer until frost. Pkt. 15c

LARKSPUR—Imperial Blue Bell. The delphinium like spikes of beautiful double azure blue flowers, carried on long stems, are compactly placed on the upright growing plants. Because of their tall, upright, compact, basal branching habit, this type of Larkspur has superseded others. Blue Bell is a particularly pleasing shade. Pkt. 15c.

LARKSPUR—Rosamond. An extra early strain, maturing two weeks earlier than other stock flowered varieties. The flowering spikes are long and heavily covered with fully double flowers. The individual florets are large and full, evenly and closely placed on the stems. The color is a pleasing, refreshing deep rose. Pkt. 15c.

MARIGOLD—Dixie Sunshine. A very beautiful, sensationally new and fascinating variety producing large ball shaped flowers. Brilliant golden yellow, 100% double blooms, composed of individual florets which are gracefully interlocked and daintily fringed. They make an excellent display in the garden and are ideal for home decoration. Sow seeds early. Pkt. 25c.

MARIGOLD—Monarch Strain. A very compact type, possessing all the qualities which make up the ideal type of Dwarf French Marigold. The plants are dwarf, compact, with very large, tight, double flowers in a wide range of color combinations of orange, bronze, yellow and mahogany. Ideal for bedding and borders. Pkt. 15c.

Aster—Mammoth Paeony Flowered

MARIGOLD—Royal Scot. A very striking new type of the Tall Double French Marigold, with an unusual color combination. The large well-formed double flowers are produced abundantly in plants two to two and one-half feet tall. The color is an unusual combination of mahogany and gold in symmetrical stripes which radiate from the center of the flower. Pkt. 15c.

MARIGOLD—Yellow Supreme. This novelty was enthusiastically received last year. It is very free flowering, compact and somewhat pyramidal in habit, 2 to 2½ feet tall; bearing loosely ruffled, carnation flowered blossoms. It is a counterpart of Guinea Gold except for the color which is a light lemon yellow. Pkt. 25c.

NASTURTIUMS—Glorious Gleam Hybrids. Delightfully sweet scented, beautifully double and in a remarkable color range, they fulfill all the requirements of an all around garden favorite. The semi-dwarf plants throw short runners from well rounded free flowering bushes. It is a brilliant blend of the popular shades. Pkt. 20c.

NASTURTIUMS—Double Sweet Scented Scarlet Gleam. During the past season this stock has been greatly improved. Fully double, of the same type as Golden Gleam. The orange scarlet flowers make a dazzling display in the garden. The blooms are richly sweet scented and are ideal for cutting. Pkt. 25c.

FLOWER NOVELTIES--1936

NASTURTIUM--Dwarf Double Golden Globe. A miniature Golden Gleam Nasturtium which is uniformly dwarf and compact. It is free flowering and the well formed double, deep golden, yellow flowers are delicately sweet scented. It is the first segregated color of the new Gem type. Pkt. 25c.

PETUNIA--Blue Bedder. This is considered to be one of the best true blue bedding petunias. It is of the Hybrida Nana Erecta class producing well rounded plants, 12 inches high. The plants are exceedingly floriferous, bearing good sized blooms of a delightful mid-blue shade. Pkt. 20c.

PETUNIA--Nana Compacta Pink Gem. All types of petunias are ideally adapted to New England conditions but this class is particularly popular. The plants are dwarf, about 6 inches tall, compact, forming a ball growth covered with beautiful, deep pink blooms. Ideal for edging. Pkt. 20c.

PETUNIA--Flaming Velvet. The only 1936 All America Gold Medal variety selected this season. It is outstanding for color, type and uniformity producing flowers of a brilliant velvety scarlet. The plants are vigorous in their growth and floriferous. A worthy addition to the Petunia family. Pkt. 35c.

PETUNIA--Celestial. For years Rose of Heaven has been one of the most popular varieties. We now have in Celestial a very much improved flower of this class. The dwarf plants are vigorous and early flowering; bearing an abundance of deep rose flowers. A very pure, outstanding strain. Pkt. 15c.

STOCKS--Imperial Shasta. Since its introduction it has gained wide popularity. The giant, vigorous, robust plants bear profusely large, glistening white, double flowers on long, strong spikes. This strain will produce a high percentage of double flowers. Pkt. 15c.

Stocks

MARIGOLD--*Tagetes Signata Pumila Little Giant*. Really an ideal, dwarf, compact plant for edges and borders. It is very dainty with fernlike foliage, producing an abundance of bright, single, orange flowers. The plants grow but 4 to 6 inches high with a spread of 8 to 10 inches. Pkt. 15c.

TITHONIA SPECIOSA. An unusual and striking plant, with dahlia like growth, requiring a relatively long growing season. Plant early to be assured of success. The vigorous plants grow 6 to 8 feet tall, producing large, brilliant, single, orange scarlet flowers similar to a single Zinnia. Pkt. 15c.

VENIDIUM FASTUOSUM--The free flowering plants grow two to three feet tall, producing a wealth of large, deep orange, daisy-like flowers. They flower for prolonged periods making an unusual showing which justly entitles them to the name, Monarch of the Veldt. Pkt. 15c.

VERBENA--Beauty of Oxford Hybrids. A beautiful, new outstanding strain of the popular Verbena, resulting from a cross between Luminosa and Beauty of Oxford. The plants are vigorous, free flowering with dark green foliage. The large flowers shade from rose pink to rose red. Pkt. 15c.

ZINNIA--Fantasy. Decidedly different from any other type of Zinnia. The plants grow 2½ to 3 feet tall, bearing an abundance of rounded, medium sized shaggy flowers in a wide range of colors including the brightest shades of red, yellow, orange and the pastel shades of pink and cream. Pkt. 15c.

ZINNIA--Scabiosa Flowered Mixed. One of the oddest and most attractive forms of Zinnia. Plants are free flowering, 2 to 2½ feet tall, producing a wealth of medium sized flowers resembling Annual Scabiosa. This blend includes a wide range of the popular and pleasing shades. Pkt. 15c.

SOME NEW VARIETIES OF SPECIAL MERIT

BEAN—New Stringless Green Pod

An outstanding variety of recent introduction being similar to Full Measure, but hardier and more dependable. Plants erect, medium large, very productive. Pods straight, dark green, round, meaty, and absolutely stringless with no fibre. Quality superior. Matures in 53 days.

Pkt. 10c; $\frac{1}{2}$ lb 25c; lb 35c; 2 lbs 60c

BEET—Asgrow Wonder

This is undoubtedly one of the best all around beets of recent introduction. It is a pedigreed stock unsurpassed in earliness, uniformity, and in depth of internal color. Tops are small, erect and slender, while the roots are semi-globular, deep red, smooth, with a small neck and tap root. Flesh is purplish red with slightly lighter zones, tender and of excellent quality.

Pkt. 10c; oz. 15c; $\frac{1}{4}$ lb 50c; lb \$1.50

CABBAGE—Golden Acre

An extra early variety of the Copenhagen Market type, with small, round, solid heads, maturing with Early Jersey Wakefield. The plants are dwarf, with few outer leaves, producing heads 5 inches in diameter, weighing $2\frac{1}{2}$ pounds. It matures in 63 days from time of setting the plants.

Pkt. 10c; $\frac{1}{2}$ oz. 25c; oz. 45c

CARROT—Hutchinson

An excellent prolific variety, particularly adapted to New England conditions. The deep orange roots, 11 to 12 inches long, are nearly cylindrical with an abrupt stump end. The flesh is deep orange, tender, crisp and of excellent quality. It will mature in 88 days from date of sowing.

Pkt. 15c; oz. 25c; $\frac{1}{4}$ lb. 85c; lb. \$2.50

CORN—Whipple's Early Yellow

As a large eared second early sort for home and market gardens, it is extremely popular. Stalks sturdy, erect, $6\frac{1}{2}$ feet tall; ears 12 to 14 rowed and $7\frac{1}{2}$ inches long. Kernels golden yellow, fairly deep, sweet and of a luscious flavor. It will mature in 84 days.

Pkt. 10c; $\frac{1}{2}$ lb 25c; lb 35c; 2 lbs 60c

CUCUMBER—Woodruff's Hybrid

One of the finest all around cucumbers in existence. The fruits are long, straight, attractive shape, and of a very rich green. It holds its color well for local markets or for shipping. Fruits measure 8 to 10 inches long, 3 inches in diameter and mature in 60 days. This is worthy of special trial.

Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb 70c; lb \$2.00

LETTUCE—White Boston

A very desirable variety for the home garden and for the local market. It is similar to Big Boston but the leaves are slightly lighter green and free from the reddish brown tint. The hearts are buttery, yellow, of excellent quality. It requires 70 days to produce heads. If interested in quality, test this variety.

Pkt. 15c; oz. 25c; $\frac{1}{4}$ lb 75c; lb \$2.50

PEAS—Onward

If luscious, sweet, tender peas appeal to you, why not try this outstanding variety? The plants grow 30 inches tall, producing pods $3\frac{1}{2}$ inches long, $\frac{3}{4}$ inch wide, medium green, straight, attractive and well filled with 6 to 8 large tender succulent peas of superb quality. ONWARD matures in 70 days.

Pkt. 10c; $\frac{1}{2}$ lb 25c; lb 35c; 2 lbs 60c
